

P.E.T.S.® Valve Gate Hot Runner Solutions From DME

**Valve gate system solutions
for every market**

DME P.E.T.S. Valve Gate Hot Runner Solutions

System Features:

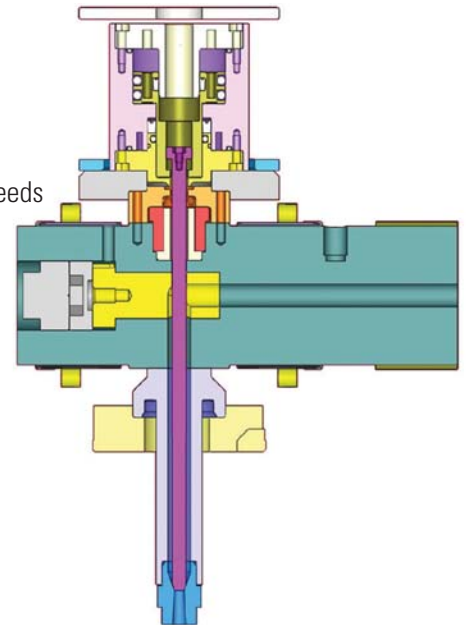

- Low shear melt channels for improved processing and part quality
- Hydraulic, pneumatic or electric pin actuation options
- Round or rectangular manifold construction
- Full "hot half" system or unitized options
- Short cycle times
- No material waste
- Inch and metric nozzle tips available
- Bodies and tips designed to fit your molding application
- Standard, replaceable components

Benefits:

- Dual-seal P-20 radius plug
- Improves engineering precision
- Round or rectangular manifold construction
- Heavy gauge cover plates
- Multiple zoning
- Internal water-cooled cylinders
- Pre-wired

Results:

- Eliminates "dead spots" that can trap and degrade material
- Achieves precise drop placement
- Retains reliability
- Solution meets your application needs
- Improves heat transfer
- Increases heat control
- Better part quality
- Reduces cycle time
