

D-Scaler System

Removes rust, scale, and/or lime from your system

- Compact & portable • Easy to operate • All non-corrosive materials • Easy to install • Prolongs the life of your equipment • Fluid is USDA authorized • Non-toxic, non-corrosive, & non-flammable fluid

If hard water or mineral deposits are decreasing the efficiency of your process heating and/or cooling, then you need a Mokon D-Scaler. This system has proven to remove rust, scale, and/or lime deposits from your process, as well as Mokon systems, or any other circulating temperature control system. This unit will increase the efficiency of your process while prolonging the life of your equipment.

The D-Scaler is portable and lightweight, making it easy to install and easy to operate. It is designed to circulate Mokon D-Scaler Fluid, a non-toxic, non-flammable liquid that quickly dissolves any deposit buildup. This USDA authorized fluid will circulate through your process safely with no harm to your equipment or to the environment.
