

Thermoshield™ Gloves

Excellent Insulation - Thousands of terrycloth loops create a cushion of air that insulates against extreme temperatures. The range of thermal protection varies according to the duration of exposure.

Ergonomically-correct Design - By eliminating stiff, bulky, uncomfortable seams, Thermoshield™ gloves provide a better fit, better breathability and greater comfort for enhanced productivity and less fatigue.

Reversible - Thermoshield™ gloves are reversible, to ensure maximum use from each individual glove; they pair easily after washing and can be replaced one glove at a time.

Superior Cost-effectiveness - Because Thermoshield™ gloves are machine knitted they provide greater consistency of quality than standard cut and sewn gloves.

Applications:

- Glass handling
- Injection molding
- Plastic processing
- Steel manufacturing

Part #	Description	Price Per DOZEN Pairs

Safe-T-Tape™

Safe-T-Tape sticks only to itself - not skin. No loss of finger sensitivity, allows skin to breathe. Protects without hindering precision. Replaces bulky gloves. Protects against abrasive surfaces, lessens harmful effects of friction. Works well in oil and water. Easy to apply and painless to remove, use to wrap fingers, wrists and hands. Excellent for many manufacturing applications.
