

“The Stripper” RESIN REMOVER

41916

Removes resin build-up from polyacetals, urethanes and flame retardant mold deposit. Removes most color deposits. Compounded with powerful solvents to remove resin build-up on molds. This build-up can be stripped without removal of mold (injection or transfer). Will remove, strip and/or aid in the removal of many resinous plastics. Mold off deposits with mold temperature above 180°F Discard next 3 to 4 shots. For flame-retardant resins - apply SLIDE mold release before attempting this procedure. Net Wt. 16 oz. (16 fl. oz.)
