Protective Sleeves

Cotton and Kevlar®

Double Ply Protection • Durable • Low Cost

- Both types are soft and non-irritating
- Can be washed
- Full double-ply for added protection and durability
- Tear and stretch resistant
- Kevlar®: cut and burn resistant, comfortable yet rugged
- Cotton: 100% cotton fiber, low-cost comfort where cut resistance is not a factor.

KPS14T	14" (w/thumb hole)	\$2.78	\$2.72	\$2.58

Heavy Duty Safety Gloves

We offer excellent style and quality in our operator safety gloves. These cotton/poly blend gloves will protect hands and absorb perspiration, yet allow air to circulate around hand and fingers. These gloves keep parts protected from hand oils and finger prints, while allowing your operators maximum dexterity and tactile sense for part finishing. Gloves are reversible, washable, stretchable and reusable.

122DLP	Double Leather Palm Glove	\$3.00	\$2.64	\$2.22

Thermoshield™ Gloves

Excellent Insulation - Thousands of terrycloth loops create a cushion of air that insulates against extreme temperatures. The range of thermal protection varies according to the duration of exposure.

Ergonomically-correct Design - By eliminating stiff, bulky, uncomfortable seams, Thermoshield™ gloves provide a better fit, better breathability and greater comfort for enhanced productivity and less fatigue.

Reversible - Thermoshield™ gloves are reversible, to ensure maximum use from each individual glove; they pair easily after washing and can be replaced one glove at a time.

Superior Cost-effectiveness - Because Thermoshield™ gloves are machine knitted they provide greater consistency of quality than standard cut and sewn gloves.

Applications:

- Glass handling
- Injection molding
- Plastic processing
- Steel manufacturing

Safe-T-Tape™

Safe-T-Tape sticks only to itself - not skin. No loss of finger sensitivity, allows skin to breathe. Protects without hindering precision. Replaces bulky gloves. Protects against abrasive surfaces, lessens harmful effects of friction. Works well in oil and water. Easy to apply and painless to remove, use to wrap fingers, wrists and hands. Excellent for many manufacturing applications.
