

Hot Runner Repair & Services

A Dedicated Center for Hot Runner Systems

Our Hot Runner Service Center, located in Madison Heights, Michigan, is exclusively dedicated to supporting your hot runner systems. Staffed by a team whose sole focus is hot runner systems, we're quickly able to get your system operating at maximum efficiency. This group has over three decades of experience installing, assembling and repairing your hot runner systems. And, because we are centrally located, we can get your system back in your shop quickly and cost-effectively.

A Wide Range of Services

We recognize the value of your time - that's why we've developed a comprehensive suite of hot runner services to provide a single source for maintenance and optimization of your system, even our competitor systems.

Key services include:

- System evaluations
- Repairs
- System cleaning and rewiring of all hot runner systems - including complete bake-out
- Total system rebuild
- Total restoration of flooded systems
- Re-configuration
- Operating training
- All machining capabilities

Before

After

Rebuilds ensure performance

After tens of thousands of cycles you may have noticed your system just doesn't perform the way it used to. Or maybe you've run high-temperature engineered materials and the tolerances just aren't as tight.

Key benefits of system rebuilds include:

- Cost savings of at least 40% as compared to new systems
- Extended life of your tool
- Maximizing system uptime and performance
- Improve finished part quality

Whether you need a total system rebuild or a simple cleaning and inspection we can help

- Complete bake-out cleaning
- Check and replace heaters & thermocouples
- Inspect and correct wiring
- Replace seals & bushings
- Clean or replace nozzle components
- Check all dimensions and re-assemble system

Hot Runner Repair & Services

Cost-Effective Reconfiguration

When your process needs change, without a significant tooling change, we can adapt your hot runner to the new process. Whether it's a material switch, or a part design, we can help reconfigure your existing system.

Training Maximizes Productivity, Speeds Set-Up

The Hot Runner Service Center can provide comprehensive operator training in start-up or prototyping. Our hands-on programs help your operators get up-to-speed, or stay current on hot runner technology

Preventative Maintenance (PM)

It is important to protect and update your hot runner system to ensure it is running at the highest efficiency. The PM Program is designed to prevent system equipment failure before it occurs. We will enhance equipment reliability by replacing worn components before they fail.

- Maximizes system performance
- Reduces cost of replacement
- Ensures peak part quality
- Decreases system downtime
- Protects your investment

The PM Program can be set up either by system cycles or by scheduled PM
