

# OPTIM Mold Service Table

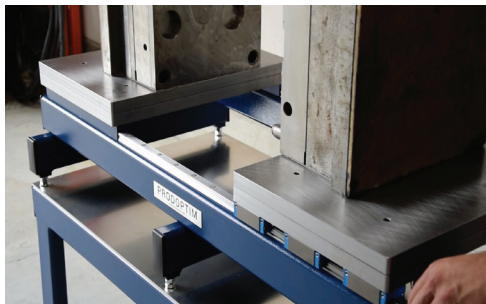

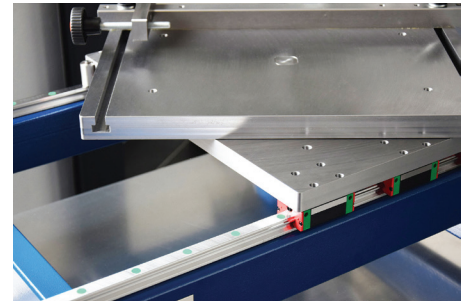

This new generation of mold service table is specifically designed to:

- Quickly and safely open molds
- Providing access to all parts of the mold for assembly/fitting of components, repair, maintenance, cleaning and production preparation
- Allows the mold to be opened and rotated without the use of cranes
- Rotates 360° for easy access to each mold half with indexing every 90°
- 3000 kg (6613 lbs.) weight capacity
- Provides a working height of 850mm (33.46")

**PART NUMBER**  
OPTIM2530-850AL

Includes:  
Table w/ pivot plates  
Platform  
Tool Plate

Maximum load	3000 kg (6613 lbs.)
Length	1200mm (47.24")
Width	600mm (23.62")
Height	850mm (33.46")
Pivot plate dimensions	500mm (19.68") x 350mm (13.78")
Opening Stroke	450mm (17.72")
