PORTABLE MOLD WATER FLOW & LEAK TESTER

This versatile portable unit will test up to 12 mold water circuits for flow rate and water leaks. The data port stores information to allow you to calculate your Reynolds Number. The unit has a 25 gallon reservoir, 3 gpm/45 psi water pump and can be pressurized up to 125 psi by using shop air.

FEATURES

- Data Port for logging flows
- Test up to 12 circuits or the entire mold.
- Thermometer & Pressure Gauge
- Water filter on discharge line to tank return
- Check valve to prevent water back up into air line
- Heavy duty casters for movement around tool room and fork truck pocket for longer moves.
- 11 gauge, powder coated steel cabinet
- Available in 120v and 220v models
- Made in the USA

Customer to supply:

- Quick disconnect fittings, 1/4" MNPT threads: 49 male (24 must have nuts for hoses.)
- Cam-lock fitting (2), 1/2" MNPT
- Hoses

DME Industrial Supplies offers **fittings, hoses and accessories** to complete your equipment package. Visit store.milacron.com to order today.
