Product Description

Econo-Purge quickly, economically and effectively removes old resin and color residue in extrusion, injection and blow molding operations. With operating temperatures of 330°F - 610°F, Econo-Purge also works on hot runners and thoroughly purges manifolds with gates as small as 30 thousandths. Compared to competitive compounds, Econo-Purge emits little if any odor during purging.

Applications
Purging Compound

Unit Package Description
50 pound box

Generic Description
Purging Compound

Net Weight Fill
multiple sizes

UPC Code
858799000684
